

SPECULUM

FIXATION FORCEPS

SMILE FORCEPS

DISSECTOR AND SPOON

- Tailor-made :** Build your own instrument set from a portfolio of 1200 instruments which allows surgeons to prepare ahead of time for success
- Simplify :** Reduce number of SKU's which contributes to a better work environment for all stakeholders
- Constant quality :** HASA Optix offers a quality equivalent to reusable devices allowing surgeons to use them constantly
- Environmentally friendly :** Instrument sets are presented in a paper pouch avoiding heavy plastic inserts (only one pack and one sterilization)
- Circular economy :** We are building a recycling program to give a second life to the stainless steel our instruments are made of
- Cost controlling :** We are offering integrated solutions to allow the circulation of a fixed cost per surgical act

\*Did you know that :

- Smile stands for small incision lenticule extraction and it is used to correct myopia
- The researchers estimate that by 2050, about 5 billion people, or half of the global population, will have myopia
- About 1.5 million smile procedures have been approved worldwide as of 2017
